## BOOK SYNOPSIS

Few events have stirred the emotions and caught the imaginations of intellectuals as did the Spanish Civil War of 1936-39. The Spanish Civil War in Literature examines the diverse literatures that the war inspired: a literature relating directly to the war, a literature of exile arising from the forty-year dictatorship of Francisco Franco, and a polemical literature embracing pro-Franco and Loyalist sympathies. In this book, specialists from a variety of fields explore these literatures within comparative and interdisciplinary frameworks. They reflect upon film, poetry, novels, painting, discourse, biography, and propaganda. The essays are grouped according to the original languages of the works they discuss—French, Russian, English, and Spanish.
